**The *On Mission for The Church Alive!* initiative is entering an essential phase of consultation with all parishioners in southwestern PA.**

After years of consultation and study with clergy and lay leaders throughout the Church of Pittsburgh, the *On Mission* process is now ready to present DRAFT proposals for your input and consultation. These models were designed at the request of the clergy using extensive research on population, finances, and effective ministry and outreach.

**These ideas are incomplete because they do not have your input.**

Every parish has been asked to hold 2 consultation sessions between October 10 and December 1. These two-hour gatherings will be opportunities for you to review the proposals and provide feedback so that the ideas can be refined and altered to best serve the needs of our 6-county diocese in the future.

***Check out the reverse side of this leaflet for more information on how you can shape the future of our local Church.***
